## Creation of 'entity' of political parties decided to solve inter-state border dispute

In an attempt to carry forward the intent of the State Government to find a solution to the long-pending, ever-alluding Assam-Meghalaya boundary issue, a decision to create "an entity" comprising the representatives of all political parties was arrived at during the meeting held here at the Yojna Bhavan Auditorium on July 29.

Chief Minister Dr. Mukul Sangma who chaired the meeting said that the boundary dispute with Assam is a thorny issue that needs to be discussed in a frank and candid manner and come to a collective decision. He also recalled the 1993 Assembly elections when the border issue was exploited to the maximum and therefore stressed the need for all political parties and stakeholders to share the responsibility of finding a solution to the vexed issue so that there would be no scope for any blame game.

He urged upon all the members present to offer suggestions as to whether the State should go for legal intervention or political engagement and dialogue with its counterpart Assam and to think of interim mechanism until they could come up with ultimate resolution.

Earlier an in depth presentation on issues and approach relating to inter-state boundary with Assam was made by Principal Secretary, Revenue & Disaster

Management, Shri. P. K. Srivastava before the meeting. The presentation was corroborated with a number of notifications to justify Meghalaya's claim.

During the meeting, the representatives from the affected border areas shared the problems being faced by the people in the areas of dispute, citing lack of development as one of the main causes for their sufferings.

The Chief Minister said that Meghalaya had never accepted the boundary demarcated by the Survey of India and although the both the states have been asked to maintain status quo, he stressed that developmental works must continue in the areas of difference. Admitting the fact that Assam was prompt in taking up developmental works in those areas, the Chief Minister said that more and more land alienation has been taking place and therefore there was a need for all political parties to come together with a sense of urgency.

After hours of discussion, the meeting decided on creation of an entity of all political parties in the State to engage with counterpart Assam at a political level. The "entity" with necessary terms of reference would be notified soon so that the first exercise can begin before the Independence Day celebrations, the Chief Minister said. He also informed that the problems and issues being faced by the people in the border areas would be taken up separately
